Summary

Results-driven junior software developer with hands-on experience in C Language, JavaScript, HTML/CSS, Java, and Python. Proficient in developing efficient and maintainable code with a focus on minimizing errors and bugs through solid software architecture. Skilled in software engineering fundamentals and database management, including SQL. Known for a strong commitment to continuous learning and staying updated on industry trends, particularly in artificial intelligence (AI), data science, and web development. Passionate about leveraging technical expertise to drive innovation and contribute to the future of computing technology.

Experience

IBM SkillsBuild — **June 2024-August 2024**
Frontend Developer Intern

Successfully completed an internship focused on developing responsive and user-friendly web interfaces. Gained hands-on experience in HTML, CSS, JavaScript

YBI Foundation — **May 2024-June 2024**
Data Science Intern

Completed a data science internship with hands-on experience in data analysis, machine learning model development, and visualization.

Vault of Codes — **March 2024-April 2024**
Python Programming Intern

Completed a hands-on internship in Python development and implementing efficient solutions

Education

Vivekananda Institute of Professional Studies — **Oct 2022-Present**
Bachelor of Computer Application

Shyama Prasad Vidyalaya — **July 2019-July2021**
Class XII CBSE

Projects

Quiz Web App
Developed a Quiz Web Application using HTML, CSS, and JavaScript to deliver an interactive user experience.

Whatsapp Chat Analyzer
Developed a WhatsApp Chat Analyzer using Python and Machine Learning techniques to gain insights from chat data.

QR Code Generator
Developed a QR Code Generator using HTML, CSS, and JavaScript to create scannable QR codes based on user input.

T0-DO-LIST Web App
It is a comprehensive and intuitive to-do list website designed to streamline task management and boost productivity.
